# COMPAERO

On behalf of our entire team I would like to thank you for your interest in Compaero. With the help of our loyal customers and dedicated employees, Compaero has grown into a truly global supplier of connector accessories. With a focus on technology and efficiency, Compaero has been able to position itself as a price leader in our industry, utilizing a system developed specifically to calculate component costs, lead times and production status and which also allows the customer to “see what we see” instantly.

Thanks to Compaero’s robust quality management system we are continually improving on our goals to deliver a competitive, quality product on time whilst providing an exceptional customer service experience. If you are a current Compaero customer I want to thank you – please continue to put your trust in us and never hesitate to let us know how we can improve. If you are new to Compaero I urge you to try us once – I am confident it will result in a continuing relationship.

## CONNECTOR ADAPTERS

Compaero manufacture and supply an extensive range of connector adapters to suit harsh environments across land, sea and air. Available solutions can provide both environmental and non-environmental sealing capabilities, effective EMI and RFI shielding and impressive strain relief options for almost any application.

Standard range adapters can be customized from a huge selection of options to ensure that your Compaero product is fully fit for purpose, whilst our team of experienced design engineers are on hand to work with you to provide bespoke solutions for more specific needs.

## CABLE CLAMPS

Compaero manufactured MS3057 style cable clamps have MS 'V' Threads that will provide strain relief for MIL-DTL-5015 Solder (style A) connectors. Used widely within the automotive and heavy industrial markets, these cable clamps provide a strong and reliable strain relief solution.

Available in both light and heavy duty versions and in a wide variety of finishes including Cadmium Olive Drab, Electroless Nickel, Black or Green Zinc Cobalt and more.

## PROTECTIVE COVERS

Compaero's full line of protective covers provide effective moisture and dust protection for almost every known circular connector.

Covers are assembled to order from stock in as little as 48 hours with a wide selection of lanyard types and lengths. Security rings and eyelets of all sizes are also available.

## ACCESSORIES

Compaero can produce and supply a full range of accessories to be used in conjunction with your chosen termination solution. Approved M85049 termination bands, constant force springs and synthetic rubber bushings are all available from stock.
